Guten Morgen, Iryna !

I would like to ask you not always to break off our talk on Skype or telephone when you don't like what I tell you. This would be part of a better communication culture.

I know you have big problems with integration in Germany due to your former lonely life in Kiev. This is understandable and can be solved with some patience and good will. It means too that you stop your permanent unjustified attacks on me and my environment - because this way you paint Germany black and horrible to yourself instead of using all the good opportunities you find here.

**I do not agree that you keep Emil another three months in Kiev - and I don't like if you make such decisions without asking me who is the father.** Don't mix your personal interest of staying away with Emil's need for health care. Germany's health system is excellent, our family has a very good health insurance and anything necessary can be done München - probably much better than elsewhere.

You can have your holidays in Kiev several times a year, if you wish so - I support you in keeping in touch with your home and your family (all are welcome to visit us here). But Emil's home is Germany.

**Please describe in detail Emil's health condition** according to Kiev doctors' statement, and then I will go to [REDACTED] Kinderdokter or hospital for consultation.

In general: Slow down and don't watch out for enemies in München everyday. There are none. Don't produce conflicts with me, which are unnecessary. Learn to cooperate and contribute to our common benefit. It is possible !

Bis heute abend

Anatol

**Emil home is where is my home.** He has here not so much stress as in Deutschland. I am tired from your control, I don't want this circus with pictures. I don't want to live in Deutschland only for your image that you are married. In reality you don't need family, you need only money and freedom. You can't decide our problems with me, you need opinion all people. You are a bad example for Emil, and I don't want to break his nervous system. He is krank and you don't think about this you think only about that your parents will be unhappy. I am angry with your papa if I am unhappy with you I should live in Kiev

Guten Morgen, Irina !

I am worrying ever more what is going on there ...

After receiving your message on Emil's health conditions, I went immediately to Pediatric Hospital (Kinderklinik) Schwabing in München's Parzivalstraße. It has a very good reputation and is specialized in almost all branches of child medicine. Besides, it offers a good environment to the patients and their visitors - see picture attached.

In the hospital, I spoke to a leading doctor about underweight, hypotonia and rachitis and possible medical procedures for Emil. He told me (what has been confirmed afterwards by my medical Daddy too):

- Rachitis is a disease which can be easily avoided today - by sunlight and by vitamin D given to the child.
- Hypotonia statements on small children should be given with greatest caution. Many children naturally have lower blood pressure than adults. If blood pressure is too low, it can be temporary - or it is concomitant with another disease that must be found then.

The doctor said that an average health examination for Emil would take 3 or 4 days in hospital. It includes:

- nutrition anamnesis,
- gastrointestinal and enteric ("kaka") analysis,
- ultrasonic check of belly and kidneys,
- perspiration analysis.

These are well-established and proven procedures.

I will be in Kiev from August 4 to 11, i.e. one full week. As well, I have postponed your and Emil's return flight to August 11, so that we can fly together.

Then we can bring Emil to Kinderkrankenhaus Schwabing - they are ready to receive us immediately, and we have a very good insurance to get done everything that is necessary.

Regards

Anatol

Oh, oh, Iryna ...

What you are doing, is not normal at all - and it getting ever worse.

Your behaviour towards me is nasty and unfair - with unjustified accusations and offences.  
You are pushing us ever closer into a situation without any peaceful exit.

Since July 10 you keep our beloved son **WITHOUT MY CONSENT** out of his residence country. This has been the greatest breach of trust.

**You give me virtually no information about his condition and the medical measures. All is secretive.** I asked you several times for a photo and a medical report - in vain ...

Emil has a very good health insurance in Germany, which covers even the most expensive medical treatments. But you are not here to use it.

I accept responsibility for decisions and choices, which we do TOGETHER. If you chose LONELY and without CONSENT, the responsibility is yours.

All could be better, if we found a consent ... I am always ready for this.

Anatol
