**Giulio's abduction to Odessa:  
When HATE CRIME meets STATE CRIME - Ukraine's HCCA boycott and the acid assault on Italian father Giovanni Arcangeli**

Pryvit, Mme Hlushchenko !

**Ukraine's Soviet-styled HCCA boycott and relentless child-abduction/retention/alienation policy** has claimed a new victim, in the most brutal way.

On Saturday morning, in Odessa Oblast's Bilhorod town, there was a **murder attempt against the Italian citizen Giovanni Arcangeli**. He had filed a HCCA child-return claim to your Ministry, after his little son Giulio was abducted to Ukraine by his Odessan mother in 2017.

Some unknown men attacked him and poured **highly aggressive acid** on his head and face. Police arrived only with great delay at the crime site.

**Giovanni is now in hospital, with his head completely burnt and his eyesight in danger.**

Giovanni is a **cultivated, friendly and peaceful Italian gentleman** - as from the picture book. There is no justification for any aggression against him.

His commitment to his beloved little son Giulio under Ukrainian mafia-state conditions **may cost him his health and look for the rest of his life.**

+++

Apart from the permanent crime against the abducted children which Ukraine's Soviet structures tolerate and support ever since, an appalling crime against a HCCA father has taken place. It shows the **state-sponsored barbarianism** in your country, whenever it comes to the father's role in child raising. This is not Europe - but the lawless steppes of Western Asia, which nobody needs in the EU !

In Giulio's case, Ukraine's totally corrupt and biased state bodies acted in the way which is so well-known to all foreign HCCA fathers:

- The **child-return procedure was de facto put on hold** for almost two years now - for deliberate procrastination.
- The **father-child contact access was obstructed** by all bureaucratic means.
- **All complaints and petitions to Ukraine's authorities were ignored** - for exhausting the father.

Your **Ministry of Justice is deeply involved in - and responsible for - this crime**. If Ukraine had acted accordingly to international law and human rights, Giovanni would have left with Giulio to safe Italy already in 2017.

It is your Ministry's **policy of delaying, postponing, sabotaging and exhausting, that has pinned down Giovanni to mob-ruled Odessa - with maximum risk for his personal security**. On top, your Ministry (as much as Denisova's Soviet-infiltrated Human-Right Commission) has **ignored all his complaints and petitions with maximum arrogance and defiance**. See attachments.

All foreign HCCA fathers are aware of this as your Ministry's standard behaviour.

+++

There are many reasons to believe that **Giulio's fanatic and insane Ukrainian mother is behind the assault - for finally eliminating Giovanni from Giulio's life**, in consistency with Ukraine's state policy. Earlier this year, Giovanni has reported to Police and your Ministry **another physical assault** in Bilhorod's streets which left him with his **nose broken**. Of course, Police did not adequately respond to his criminal complaint. After all, **Ukraine is repressive and heavily discriminating against foreign fathers**.

This case will certainly **shake up the public opinion in Western countries**. The pictures are strong and shocking. People will **rightfully conclude: Ukraine is a mafia state !**

Indeed, even five years after Maidan (!), your Ministry and Government have maintained an **environment of total impunity for Ukrainian abductor mothers (which hits Ukrainian fathers as much !)**. And the damage which such insane mothers cause on the children is as bad - though less visible than Giovanni's burnt face ...

+++

In Giovanni's and Giulio's fate, **individual hate crime has met long-established state crime** - with horrible results.

**Destroying father's life - mentally, physically, financially - with Ukraine's well-proven weapons, harms the future of the child too.**

**Stop IMMEDIATELY Ukraine's infamous HCCA boycott and send ALL ABDUCTED CHILDREN home by fast-track administrative order - without further endless Soviet show trials at your rotten courts !!! Do not expose more foreign fathers to risk, danger and violence under the ongoing lawlessness in your country !!!**

**And: Do good on Giovanni himself - as a small compensation for all the misery Ukraine's policy has brought to him !!**

**Let him see his son !**
